painters, farmes and more.

# OxyPRO - Professional respiratory protection sets

**OxyPRO sets** are ready-made, complete solutions that provide effective respiratory protection for a variety of applications, from agriculture and chemical work to industrial grinding. Thanks to the variety of options, each user can tailor the kit to their exposure level.

## Why choose OxyPRO?

- Fully equipped - all components (masks, canisters, filters, and attachments) are included in a single package.
- High quality - products meet WHO standards; X6/X7 bayonet masks ensure comfort, ergonomics, and durability.
- Ready to use - kits are available in a bucket, ready for immediate use in the field.
