

# SMOG

## SMOG X 200 V

The SMOG X 200 V is **one of the simplest and lightest models** on the market, providing a high level of comfort for people sensitive to facial covers. The half-mask design allows free breathing, and so is useful in daily life, on the way to work or school. Filtration protects our respiratory system, so it is advisable to use the anti-smog half-mask even on short-time stays in environments where smog norms are exceeded. The anti-smog half-mask protects the respiratory system against the inhalation of PM10 and PM 2.5 dust, connected to smog, along with the carcinogenic, polycyclic aromatic hydrocarbons (PAHs) that often attach to them: benzo(a)pyrene, naphthalene – carcinogenic and strongly poisonous substances. The SMOG X 200 V model filters particles smaller than 2  $\mu\text{m}$  in diameter.
