

Oxy line

INDUSTRY AND RETAIL AUTOMATIC MACHINES
UTILITIES FOR ISSUING AND RETURNING ITEMS IN YOUR COMPANY

ABOUT COMPANY

Oxyline Sp. z o.o. was founded on 12 February 2008, we specialises in the manufacture of high-quality disposable gas masks and gas respiratory protection. Several year ago in 2018 we have launch our coveralls brand **Oxychem**. In 2022 we have decided to add industrial vending machines to our offer. There is such a **big potential of the vending machines** in many sectors and this solution is needed to optimize processes and be **more effective in today's world**. We offer vending machines for every industry and have various models available such; **OxyStock, OxyDrawer, OxyLocker or OxySpace** our latest solution which is a total revolution for companies working outside in the open air environment.

BENEFITS

COST REDUCTION

The use of automatic dispensing machines significantly reduces the cost of transferring assortments.

TIME SAVING

There is no need to involve other people for issuing, thanks to which the release time is shortened.

CONTROL

Automated machines contribute to reducing stock inventory and consumption. They increase the precision of cost monitoring.

REPORTING

The device management system allows you to generate reports supporting the assortment management. In addition, the system can be used by a supplier who is kept informed about the stock levels in a given device.

CONTINUOUS OPERATION 24/7

Products can be dispensed regardless of working hours, holidays and weekends.

OXYSTOCK 945

- ▶ **Fully automated** dispensing and return process
- ▶ Product **access authorization** - per employee or group of employees
- ▶ Full handling of the **product returns** process
- ▶ **Modular and flexible** solution in terms of configuration
- ▶ Possibility to equip the device with a **payment module**

	<div> <div>OXYStock 945</div>  </div>
The number of unique indexes	max. 945
Width	110 cm
Height	200 cm
Depth	84 cm

OXYSTOCK 1260

- ▶ **Fully automated** dispensing and return process
- ▶ Product **access authorization** - per employee or group of employees
- ▶ Full handling of the **product returns** process
- ▶ **Modular and flexible** solution in terms of configuration
- ▶ Possibility to equip the device with a **payment module**

	<div> <div>OXYStock 1260</div>  </div>
The number of unique indexes	max. 1260
Width	136 cm
Height	200 cm
Depth	109 cm

OXYSTOCK

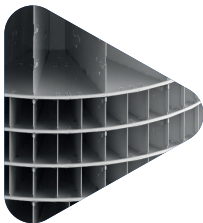

SCALABILITY

OXYStock can be combined with other drum machines and IRLocker solutions.

CONFIGURABILITY

The machine drum is adaptable in terms of the number and size of the chambers in order to optimise the use of space.

FUNCTIONALITY

Built-in barcode reader and RFID facilitate product return, reduce log-in time while increasing process control.

INTUICITY

21" screen enables implementation of an intuitive interface and presentation of personalized content.

ERGONOMICS

A number of solutions facilitating the work and mobility of machines.

OXYLOCKER

- ▶ **Modern and functional** storage system
- ▶ Construction and equipment **resistant to outdoor conditions**
- ▶ **Free configuration** of storage compartments and drawers
- ▶ Design solutions for **easy transport**

	OXYLocker Master	OXYLocker Master Slave	OXYLocker Slave Master Slave
The number of unique indexes	max. 193	max. 386	max. 579
Width	110 cm	220 cm	330 cm
Height	200 cm	200 cm	200 cm
Depth	60 cm	60 cm	60 cm

OXYLOCKER

OUTDOOR

- **Modern and functional** storage system
- Construction and equipment **resistant to outdoor conditions**
- **Free configuration** of storage compartments and drawers
- Design solutions for **easy transport**

	OXYLocker Master	OXYLocker Master Slave	OXYLocker Slave Master Slave
			
The number of unique indexes	max. 193	max. 386	max. 579
Width	110 cm	220 cm	330 cm
Height	220 cm	220 cm	220 cm
Depth	60 cm	60 cm	60 cm

OXYLOCKER

SCALABILITY

OXYLocker can be combined with other drum machines and IRStock solutions.

CONFIGURABILITY

Layout of storage/drawers can be tailored to individual customer needs.

INTUICITY

21" screen enables implementation of an intuitive interface and presentation of personalized content.

FUNCTIONALITY

Built-in barcode reader and RFID facilitate product return, reduce log-in time while increasing process control.

OXYDRAWER

- ▶ **Intuitive and easy** to use
- ▶ **Compact design** for high mobility
- ▶ **Free configuration** of drawer space
- ▶ Product **access authorization**
- per employee or group of employees

	<div>OXYDrawer</div> 
The number of unique indexes	max. 1144
Width	100 cm
Height	175 cm
Depth	66 cm

OXYDRAWER

SCALABILITY

OXYDrawer can be combined with other drum machines, OXYLocker and OXYStock solutions.

INTUICITY

21" screen enables implementation of an intuitive interface and presentation of personalized content.

CONFIGURABILITY

The space in the drawer can be freely configured and divided into smaller compartments.

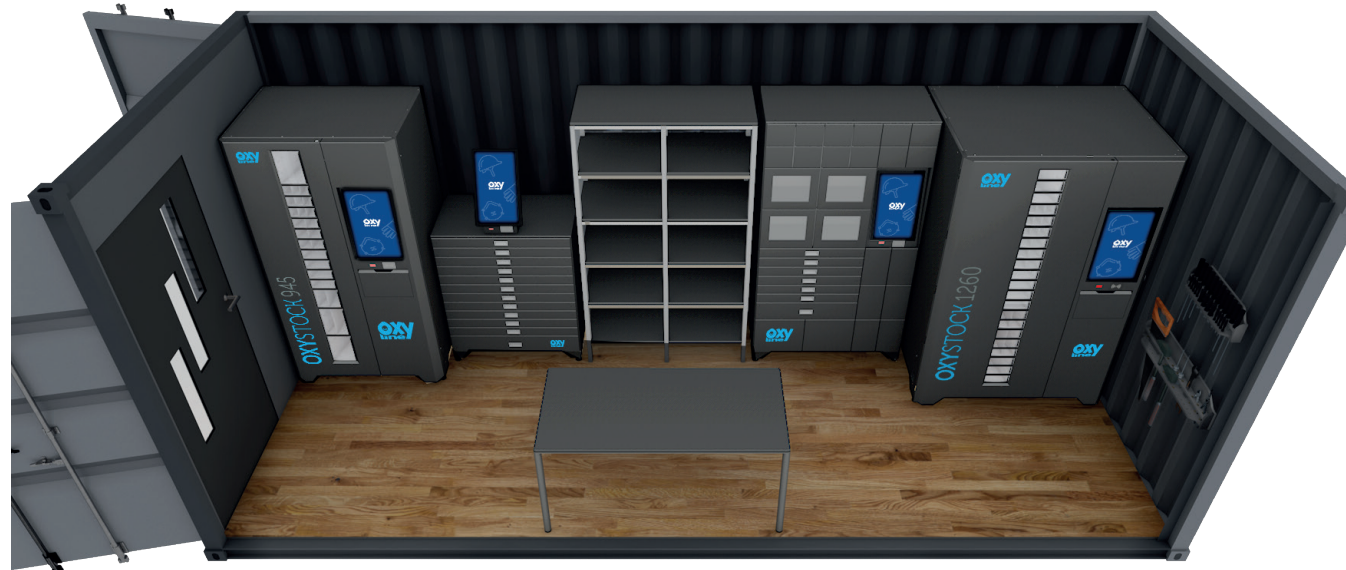

FUNCTIONALITY

Built-in barcode reader and RFID facilitate product return, reduce log-in time while increasing process control.

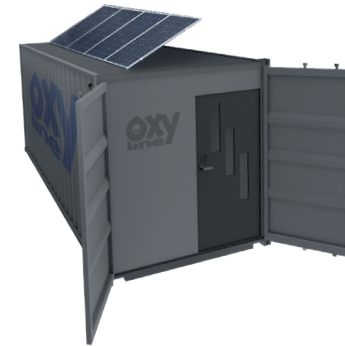

OXYSPACE

- ▶ **Mobile** product management regardless of location.
- ▶ Adaptation of the container space tailored to **individual needs**
- ▶ Access to the self-service warehouse **24/7**
- ▶ **3 sizes** of publishing space 10' (3m), 20' (6m), 40' (12m) in length
- ▶ **An alternative** to a classic tool room or a health and safety warehouse, bringing measurable savings

OXYSPACE

MOBILITY

Changing the location of the publishing space depending on the needs and work progress. e.g. on specific job sites, such as road or pipeline construction.

SCALABILITY

The publishing space is individually arranged and in the future, modified or combined with another **OXYSpace**.

FULL CONTROL

OXYSystem monitors the level of product availability in real time and enables the limitation of spending for individual users and groups.

24/7 AVAILABILITY

Remote management allows unlimited access for 2 or 3 shifts.

OXYSYSTEM

SYSTEM FOR THE MANAGEMENT OF DISPENSING PROCESSES

- ▶ **OXYSYSTEM** for integration into customer systems such as ERP, GERP, etc., real-time viewing of statuses on the machine
- ▶ **Full control of access** to the machine and products
- ▶ **Reporting module** with possibility of file export
- ▶ Possibility of **generating automatic product orders**
- ▶ The machine can become an **automated shop** at the customer's premises
- ▶ At the customer's request, it is possible to **adapt the software** to specific business requirements
