

Mounting bracket for KS 9000 vertical system

Mounting bracket for KS 9000 vertical system

- Helps to clamp the ladder system onto the underlying structure. The recess thus created helps providing a good support to the foot on the ladder rung.
- Provided with a hex head screw for fastening to the rail (shorter extremity).
- The fastener used on the wall side should be adapted to the material of the receiving structure (chemical fastening for concrete wall, stainless steel fastener for metal structure...).

Material:

Inox 316
