This belt can be adapted on any kind of harness, and more specifically on harness ref. FA 10 114 00 (for work in confined spaces, mainly in the sanitation and drinking water distribution industries).

**Adaptability:** Closure through automatic ventral buckle, also allowing the adjustment of the size.

**Convenience:** Carrying strap allowing the installation of most of the self-rescuer respirators. The self-rescuer case will slide on the carrying strap through one hand only and shift from dorsal to ventral position to facilitate the positioning of the respiratory mask.

**Ergonomics:** Optimum width comfort pad to provide sufficient lumbar support.

### Material of components:

Webbing: Polyester

Buckles: Steel
