

# RACE

Prix de l'Innovation  
Prévientica NANTES 2014

This model has been developed to meet with modern requirements : protection, comfort and look.

The model Race, is available in a clear or smoke lens, and is equipped with a non slip nose bridge, pivoting and non slip temples, giving better comfort, whatever the face shape.

It also has our new anti-scratch, and anti fog coating. This coating named eXcellence has been exclusively developed and exceeds the european standard EN166.

This coating resists scratching and aggressive chemical products. It also effectively delays the effect of condensation (2 mins).

Whatever the use and the enviroment. Race will win you over.
